Parent Meeting

Conferences are crucial for fostering good relationships between the parents and teachers, when it comes to a child's academic and personal development. For parents, these conversations can provide greater details about challenges occurring in the classroom and will allow them to understand how they may be able to address these issues outside of school. For teacher, they believe conferences can help them better understand their students' needs and home environments, and how this translates into the classroom. While instruction and learning may appear to take place in the classroom, the boundary between home and school in terms of learning is much more fluid. After all, the relationships built between teachers and parents, and the flow of information back and forth, will ultimately have the greatest positive impact on your child.

Parent Meetings:

Parent meetings will be on Wednesday, March 2, 2022. If you have not already done so, please send back appointment letter to your child's class teacher.
